

You can purchase Rail passes for state or regionally travel. Railway systems have their own railway passes, but a lot allow traveling on multiple railway systems.

Austrail- is an economy class pass that allows you to travel anywhere on the entire rail network. This pass includes all metropolitan systems. The Austrail pass has to be used over consecutive days. Durations include 14, 21, and 30 day travels plans. This pass must be purchased before you arrive and travel in Australia. Australian residents cannot purchase this pass.

Austrail Flexipass - A flexible economy class travel pass with time ranges of 8, 15, 22, or 29 days within 6 months. The only real restriction is with the 8 day pass that does not allow you to travel between Adelaide/Perth or Adelaide/Alice Springs. Again Australian residents cannot purchase this pass. You must also buy this pass before coming to Australia.

East Coast Discovery– One way travelling between cities. For example Melbourne to Sydney or Sydney to Gold Coast/Brisbane. This pass includes unlimited stopovers within 6 months of traveling on the Countrylink and Queensland rail systems.

New South Wales Discovery- Includes a one month economy class on Countrylink. This is good for trains to Canberra. The only downside is that it does not include CityRail suburban rails.

Inter Rail
